Career Objective:

I'm a Web Developer with professional internship experience at Blackly. I design, build and maintain production-ready web applications using modern JavaScript technologies, working across frontend and backend systems. I focus on solving practical problems and contributing to reliable products.

Skills:

Languages	:	JavaScript, TypeScript
Frontend	:	React, Next.js, Redux, React Router, Tanstack, Tailwind CSS, Shadcn
Backend	:	Node.js, Express.js, Rest APIs, Firebase, JWT, Passport.js, Stripe, Zod
Databases	:	PostgreSQL, MongoDB, Prisma, Mongoose

Projects:

Lorvic - Multi Vendor E-Commerz: **Live   Client-site   Server-site**

A multi-vendor e-commerce platform built to manage shared operations, control access and prevent workflow conflicts, with clear ownership and reliable data handling across the system.

- Designed an RBAC-driven architecture enforcing clear permission boundaries across multiple roles
- Built a vendor-centric product, order lifecycle ensuring clear ownership and inventory consistency
- Implemented transaction-safe checkout flows to ensure payment accuracy and order integrity

Tech Stack: Next.js, Node.js, Express, MongoDB, Mongoose, JWT, Passport.js, Stripe, Cloudinary, Shadcn

Velocia - Ride Sharing Platform: **Live   Client-site   Server-site**

A ride sharing platform buit to handle real-time ride operations and coordinated user interactions, designed to maintain consistent ride state, user actions and dependable system behavior during active.

- Designed role-specific workflow orchestration to coordinate user actions with real-time oversight
- Built a state-driven ride lifecycle system managing ride creation through completion predictably
- Implemented real-time state synchronization keeping ride status and user actions aligned

Tech Stack: React, Redux, Node.js, Express, Mongoose, Redis, JWT, Passport.js, Nodemailer, Shadcn

Education:

Completed Dawra-e-Hadith (Master's Degree in Islamic Studies)
Jamia Islamia Dhaka
2020-2024

Experience:

Frontend Developer Intern at Blackly
April 2025 - July 2025
